@g7_rg

“We have meanwhile set up a process and there are also independent institutions monitoring which objectives of our G7 meetings we actually achieve. When it comes to these goals we have a compliance rate of about 80%, according to the University of Toronto. Germany, with its 87%, comes off pretty well. That means that next year too, under the Japanese G7 presidency, we are going to check where we stand in comparison to what we have discussed with each other now. So a lot of what we have resolved to do here together is something that we are going to have to work very hard at over the next few months. But I think that it has become apparent that we, as the G7, want to assume responsibility far beyond the prosperity in our own countries. That’s why today’s outreach meetings, that is the meetings with our guests, were also of great importance.”

Chancellor Angela Merkel, Schloss Elmau, 8 June 2015

G7 summits are a moment for people to judge whether aspirational intent is met by concrete commitments. The G7 Research Group provides a report card on the implementation of G7 and G20 commitments. It is a good moment for the public to interact with leaders and say, you took a leadership position on these issues — a year later, or three years later, what have you accomplished?

Achim Steiner, Administrator, United Nations Development Programme, in G7 Canada: The 2018 Charlevoix Summit

Background

The G7 leaders have long preached the importance of sustainable growth at their Summits and have especially focused on the need to encourage sustainable growth in developing countries and, more recently, in Africa. In 2015, the United Nations (UN) General Assembly adopted the UN Sustainable Development Goals (SDGs). The SDG’s lay the ground for a new approach to tackling pressing global challenges in Africa and across the world. The G7 Leaders’ emphasis on promoting sustainable growth falls in line with meeting SDG target 8. SDG 8 urges the promotion of “sustained, inclusive, and sustainable economic growth, full and productive employment and decent work for all.”

The notion of promoting sustainable growth in G6 economies to better develop countries’ economies was first brought up at the 1975 Rambouillet Summit. Leaders stated that sustained growth in their economies was necessary to growth in developing countries which contributed to growth in the global economy. At the 1977 London Summit, the G7 leaders echoed this sentiment by stating that they would commit their governments to economic growth targets that would bring sustained non-inflationary growth worldwide.

At the 1984 London Summit, the G7 leaders recognized the importance of promoting sustainable growth in developing countries. At the Summit, leaders stated that G7 economies needed to re-enforce economic growth and jobs and that this would also support “poorer nations” in their attempts to achieve sustained growth.

At the 1988 Toronto Summit and the 1989 Paris Summit, G7 leaders stated that an increase in resource flows and improving the investment climate was necessary to help the poorest countries maintain sustainable development.

---

growth. Africa is not mentioned in either Summit; however, it is important to recognize that leaders were beginning to promote sustainability in economies outside their own.

At the 1991 London Summit, G7 leaders recognized for the first time that development in Africa was explicitly addressed. They stated that the Special Programme of Assistance for Africa, led by the World Bank (WB), which provides support for economic reforms, showed its worth.

The 1993 Tokyo G7 Summit marked the first time G7 leaders stated their encouragement for sustainable growth in developing countries. Leaders expressed their encouragement for developing countries to follow “sound and open economic policies” to create a base for sustainable growth.

The promotion of sustainable growth in developing countries or Africa was not brought up again until the 1998 Birmingham Summit. At the Summit, G8 leaders declared the importance of building sustainable growth in all countries due to the interdependency of the world economy. They also committed to supporting African countries’ efforts to reform their financial systems to be able to meet economic and social development goals set out in the Organisation for Economic and Co-operation and Development’s 21st Century Strategy.

At the 1999 Köln Summit, G8 leaders reaffirmed their commitment to achieving both economic and social development in Africa and overall balanced world growth. The importance of sustainable growth in the world economy was again mentioned at the 2000 Okinawa Summit; however, there was no direct mention of supporting sustainable growth in Africa.

This changed in the 2001 Genoa Summit as more focus was put on supporting African countries specifically. G8 leaders declared that they would support African countries by promoting various financial policy tools to encourage sustainable development and growth, such as accountability and transparency in the public sector as well as legal frameworks and corporate governance regimes to fight corruption. They also reaffirmed the importance of promoting sustainable growth for the world economy.

At the 2004 Sea Island Summit, G8 leaders again recognized the need to support African countries’ push for sustainable growth. At the Summit, leaders declared their support for adopting a G-8 Plan on Applying the Power of Entrepreneurship to the Eradication of Poverty in Africa.

3253 Chair’s Summary, G7 Information Centre (Toronto) 10 June 2004. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2004seaisland/summary.html
At the 2005 Gleneagles Summit, G8 members recognized the work that African leaders had been taking to combat poverty and promote economic growth in their countries. G8 leaders decided to support this progress by agreeing to a comprehensive plan that included stimulating growth, improving the investment climate and improving Africa’s capacity to trade. The importance of working in partnership with Africa for sustained growth was reaffirmed by G8 leaders at the 2006 St. Petersburg Summit. In addition, more concrete commitments towards promoting sustainable growth in Africa were made in the 2007 Heiligendamm Summit. Specifically, a variety of measures were welcomed, such as establishing a partnership to make finance work for Africa, promoting market integration and more coherent and coordinated support for capacity building for regional economic communities.

At the 2008 Hokkaido-Toyako Summit, G8 leaders reiterated their support for “good governance and self-sustained, private-sector led growth in developing countries,” such as Africa, and global growth. As a global economic crisis began to hit economies, the 2009 L'Aquila Summit recognized the importance of assisting developing countries in dealing with the crisis. In addition, G8 leaders encouraged developing countries to continue implementing economic strategies that provide supportive and inclusive growth.

At the 2010 Muskoka Summit, G8 leaders reaffirmed their support for the work that African leaders have been doing towards sustainable development. They also stated that they would continue to support African-led efforts to advance social and economic development.

The 2011 Deauville Summit and the 2012 Camp David Summit recognized the progress that had been made with African leaders towards strong growth in Africa and emphasized the importance of ensuring a strong, sustainable and balanced growth in the global economy. The focus on Africa and sustainable growth remained strong at the 2013 Lough Erne Summit. G8 leaders stated the importance of working with African partners to promote inclusive and resilient growth in the countries through policy tools such as increased transparency, greater infrastructure, better management of natural resources, better trade and the elimination of trade barriers. At the 2014 Brussels Summit, the same policy priorities were reaffirmed with a specific focus on working with governments and citizens to enhance these governance mechanisms.

At the 2015 Schloss Elmau Summit, there were fewer conversations surrounding supporting growth in Africa. However, G7 leaders stated that they welcomed growing economic opportunities across Africa and committed to continuing efforts to achieve global growth for all.

3254 Chair’s Summary, G7 Information Centre (Toronto) 8 July 2005. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2005gleneagles/summary.html
3255 Chair’s Summary, G7 Information Centre (Toronto) 17 July 2006. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2006stpetersburg/summary.html
3256 Chair’s Summary, G7 Information Centre (Toronto) 8 June 2007. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2007heiligendamm/g8-2007-summary.pdf
3261 8 Lough Erne Leaders Communiqué, G7 Information Centre (Toronto) 18 June 2013. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2013lorougherne/lough-erne-communique.html
3262 G7 Brussels Summit Declaration, G7 Information Centre (Toronto) 5 June 2014. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2014brussels/declaration.html
At the 2016 Ise-Shima Summit, G7 leaders stated that they would continue to support African ownership of African challenges, such as promoting sustainable development and job growth. They also pledged to tackle current economic challenges to lay the foundation for stronger global growth.

At the 2017 Taormina Summit and the 2018 Charlevoix Summit, G7 leaders did not specifically commit to promoting sustainable growth in Africa but did commit to promoting growth globally and in developing economies. In 2020, the COVID-19 pandemic hit, which shocked the global economy. In response, at the 2020 USA Virtual Summit, G7 leaders stated that they were determined to restore the level of world growth that was occurring before the pandemic and setting the bedrocks for stronger future growth.

It is evident that although the promotion of sustainable growth in Africa was a key priority from the 1990s to the early 2000s, the topic has recently been placed on the backburner by leaders. The commitment made at Cornwall will bring a renewed focus to the issue.

**Commitment Features**

The G7 Commitment states that: “A central focus of our new strategic approach will be supporting sustainable growth in Africa.” In this commitment there is one target: the central focus of a G7 member’s new strategic approach to Africa must be sustainable growth.

“Central” is understood as of primary importance and “focus” is understood as a point of concentration of an activity. In this context “central focus” would mean that G7 members’ policies towards Africa would consider sustainable growth as an imperative.

“New” is understood as having recently come into existence, “strategic” is understood as necessary in the completion of a plan and “approach” is understood as to make advances for a specific result. In this context, “new strategic approach” would refer to the G7 members’ method of constructing a relationship with African countries and influencing their policies. For example, this could mean that a G7 member prioritizes sustainable growth as a means to advance their interests, or global interests in Africa.

“Supporting” is understood as promoting the interests or the cause of an individual or group. In this context, a strong action is understood as giving financial support to sustainable growth as stated in the African Union Agenda 2063. The Agenda 2063 is the strategic framework in which the African Union aims to achieve sustainable economic development and growth in Africa.

---

3264 G7 Ise-Shima Leaders’ Declaration, G7 Summit Information Centre (Toronto) 27 May 2016. Access Date: 26 September 2021. http://www.g7.utoronto.ca/summit/2016shima/ise-shima-declaration-en.html

“Sustainable growth” is understood as growth that is repeatable, ethical and responsible to and for current communities.\textsuperscript{3271} It is interpreted as economic growth for the purpose of this commitment, as G7 members have repeatedly referenced “growth” in relation to the economy in past communiqués. Examples of sustainable growth include investing in green spaces, renewable energy sources, transitioning away from fossil fuels, ensuring transparency in financial transactions, fighting against crime and corruption, among others.

“Africa” is understood as any country that is within the African continent or the African Union as a body.\textsuperscript{3272} Examples include but are not limited to Mali, Zimbabwe, and Ethiopia.

Full compliance, or a score of +1, with this commitment occurs if a G7 member takes strong action towards supporting sustainable growth as a central component of their policies towards Africa in at least 3 of the 5 African Union Agenda 2063 areas: 1) Well educated citizens and skills revolution underpinned by science, technology and innovation; 2) Modern agriculture for increased productivity and production; 3) Environmentally sustainable and climate resilient economies and communities; 4) Preservation of peace, security and stability; 5) Full gender equality in all spheres of life.

A strong action is understood as a financial contribution, either through aid, assistance or backing up an initiative, tied to a policy that is centered around one of the 5 areas of the African Agenda 2063. This can occur in two different ways. Firstly, a G7 member can adopt a policy towards Africa, an African country, or multiple African countries that includes financial support to achieve sustainable growth in one or more of the 5 areas. Alternatively, a G7 member can adopt a policy and provide financing within a global initiative to support sustainable growth in Africa in one or more of the 5 areas. In both scenarios, the key component is that a G7 member state is taking strong action by creating a policy centred around financially supporting sustainable growth in Africa.

Examples of strong actions for 1) Well educated citizens and skills revolution underpinned by science, technology and innovation, include but are not limited to, financing sustainable infrastructure that will create job growth, the retraining of workers, the building of post-secondary institutions.

Examples of strong actions for 2) Modern agriculture for increased productivity and production, include but are not limited to, financing the protection of water quality, vertical farming and automated farming.

Examples of strong actions for 3) Environmentally sustainable and climate resilient economies and communities, include but are not limited to: providing financing for a renewable energy project, infrastructure project, or climate preparedness.

Examples of strong actions for 4) Preservation of peace, security and stability, include but are not limited to, providing financing for increased transparency, governance monitoring, or anti-corruption initiatives within countries.

Examples of strong actions for 5) Full gender equality in all spheres of life, include but are not limited to, providing financial assistance for the creation of a girl’s school, adding a gender dimension to development projects, financing initiatives that target women or LGBTQ+ members who have been victims of gender-based violence.

Partial compliance, or a score of 0, with this commitment occurs if a G7 member takes strong action in 2 or 3 of the African Union Agenda 2063 areas: 1) Well educated citizens and skills revolution underpinned by science, technology and innovation; 2) Modern agriculture for increased productivity and production; 3) Environmentally sustainable and climate resilient economies and communities; 4) Preservation of peace,

security and stability; 5) Full gender equality in all spheres of life. This is because taking strong action in only 2 of 5 areas means that the member is either taking weak actions or no action in the majority of the Agenda 2063 target areas.

Non-compliance, or a score of −1, occurs if a G7 member takes strong action in 1 or none of the African Union Agenda 2063 areas: 1) Well educated citizens and skills revolution underpinned by science, technology and innovation; 2) Modern agriculture for increased productivity and production; 3) Environmentally sustainable and climate resilient economies and communities; 4) Preservation of peace, security and stability; 5) Full gender equality in all spheres of life.

**Canada: +1**

Canada has fully complied with its commitment to promote sustainable growth in Africa.

On 2 November 2021, the Minister of Environment and Climate Change, Steven Guilbeault, attended the African Adaptation Acceleration Summit, where he announced that Canada would contribute CAD37.5 million to the Least Developed Countries Fund (LDCF), up to CAD10 million to the Adaptation Fund that will support vulnerable countries against the devastating impacts of climate change and up to CAD10 million for the National Adaptation Plan (NAP) Global Network which advances gender-responsive capacity building.3273 With the additional support to the LDCF, the Fund will continue to address the adaptation needs of the poorest and most vulnerable countries through critical, on-the-ground projects related to water, agriculture and food security, disaster risk management and prevention and fragile ecosystems.

On 24 November 2021, the Minister of International Development and Minister responsible for the Pacific Economic Development Agency of Canada Development, Harjit S. Sajjan, participated in the 27th Canadian Conference on Global Health where he announced CAD325 million in funding for eleven projects with

---

Canadian health partners. The investment, spread over five to seven years, will help key partners increase access to essential services, as well as promote gender equality and transform decision-making structures that reinforce and perpetuate inequality, with a focus on Sub-Saharan Africa.

On 3 December 2021, the Prime Minister of Canada, Justin Trudeau, initiated a country-led partnership approach working within the G20 to operationalize country platforms, including enhancing support for the existing framework and principles and their implementation, and building on existing initiatives such as the G20 Compact with Africa and Global Infrastructure Facility to strengthen and coordinate partnerships, planning and programming.

On 9 December 2021, the Minister of International Development and Minister responsible for the Pacific Economic Development Agency of Canada, Harjit S. Sajjan, announced that Canada will renew its support for its Volunteer Cooperation Program through a financial contribution of almost CAD418 million over seven years, from 2020 to 2027. Through this commitment, Canada will fund 13 volunteer development projects in partnership with 15 Canadian organizations and mobilize around 10,000 volunteers to work in solidarity with over 700 organizations in approximately 47 countries. Sub-Saharan African countries will receive more than 50 per cent of the allocated funding.

On 10 February 2022, the Minister of Foreign Affairs, Melanie Joly, participated virtually in the Third Global Conference for Media Freedom, in which she announced CAD636,048 in funding to support the International Press Institute in its work to strengthen the safety of journalists in Sub-Saharan Africa.

On 17 February 2022, the Minister of International Development and Minister of Response for the Pacific Economic Development Agency of Canada, reinforced Canada’s commitment to climate adaptation, climate partnerships and putting women and girls at the forefront of climate action by announcing CAD315 million in new funding for organizations in Canada to engage in climate action activities, split into two separate funds. CAD300 million will encourage broad non-governmental engagement in climate change programming in sub-Saharan Africa—including CAD20 million for advancing women’s rights and climate change adaptation. CAD15 million will support Indigenous peoples and organizations in Canada in advancing climate action alongside Indigenous partners in developing countries. This fund will be available to any Official Development Assistance-eligible country, not just to sub-Saharan Africa.

On 8 March 2022, Minister Sajjan, announced CAD14.8 million in funding will be provided for the Rural Women Cultivating Change project. The project will target remote rural regions of Ethiopia, Kenya and Tanzania to both empower women and provide support to advance climate adaptation.\textsuperscript{3280}

On 8 March 2022, Minister Sajjan announced CAD13.3 million in funding for Development and Peace-Caritas Canada for a project implemented in the Central Sahel Region of Africa with the purpose of boosting the food security and nutrition of workers, especially women and youth.\textsuperscript{3281}

On 8 March 2022, Minister Sajjan announced CAD7.2 million in funding to the United Nations Development Programme, for a project implemented in seven Tunisian regions, aiming to strengthen capacity for green entrepreneurship and environmental development.\textsuperscript{3282}

On 21 March 2022, Minister Sajjan completed a visit to the African continent.\textsuperscript{3283} During his visit, he announced more than CAD83 million in funding to support the ongoing COVID-19 response and critical development and health programming, with the purpose of supporting Ghana and Senegal as they recover from the impacts of the pandemic.

On 26 April 2022, Minister Sajjan, announced over CAD73 million in funding for gender-responsive humanitarian aid and development assistance for Ethiopia, Kenya and Somalia in light of the recent extreme droughts in the Horn of Africa.\textsuperscript{3284} The funding will go towards United Nations agencies, the International Red Cross and Red Crescent Movement and non-governmental organizations to address hunger, acute malnutrition and other critical needs.

On 24 May 2022, Minister Sajjan announced that Canada contributed CAD100 million in funding to the African Development Bank (AfDB) to support small and medium-sized agri-food businesses in growth and sustainability. Minister Sajjan emphasized the importance of investing in sustainable agribusiness across Africa, especially those run by or benefitting women. The funding will go through the Government of Canada’s International Assistance Innovation Program.\textsuperscript{3285}

On 26 May 2022, Minister Sajjan announced that Canada will provide CAD68 million in international assistance to Rwanda and Kenya for diverse development objectives. Minister Sajjan announced that CAD25 million will go towards supporting technical and vocational education and training (TVET) in Kenya’s emerging blue economy sector. Furthermore, Minister Sajjan announced that CAD37 million will go towards

funding for four new projects aimed at empowering women and girls to participate in African politics. Lastly, Minister Sajjan announced CAD6 million in humanitarian funding for crisis-affected people in East Africa.\textsuperscript{3286}

On 30 May 2022, Minister Sajjan announced that Canada will provide a total of CAD223.4 million in new assistance to South Sudan. CAD202.65 million of the assistance will go towards supporting food security, gender equality and access to health services. Minister Sajjan announced that the remaining CAD20.75 million in humanitarian assistance will support the provision of food, health, nutrition, water, sanitation, protection, and hygiene services to conflict-affected populations in South Sudan.\textsuperscript{3287}

Canada has fully complied with its commitment to promote sustainable growth in Africa. Canada has taken full action to support sustainable growth by assisting in initiatives that assure expansion of environmental ethics, better livelihood for women and technology skills education. These actions support the African Union Agenda 2063 in the areas of environmentally sustainable and climate-resilient economies and communities, well-educated citizens and skills revolution and full gender equality in all spheres of life.

Thus, Canada receives a score of +1.

\textit{Analyst: Ieuan Edwards}

\textbf{France: +1}

France has fully complied with its commitment to support sustainable growth in Africa.

On 8 July 2021, the Minister for Europe and Foreign Affairs inaugurated the International Counter-Terrorism Academy in Jacqueville, Ivory Coast.\textsuperscript{3288} The facility will contribute to the cooperation between French, Ivorian, and other ministries in the area of global anti-terrorism to foster peace and stability.

On 1 August 2021, the French Development Agency (AFD) began a project to support rural electrification in the Ivory Coast.\textsuperscript{3289} With the support of the European Union, this project will contribute to infrastructure development and improved living conditions in underdeveloped Ivorian communities.

On 2 November 2021, the government of France, alongside the governments of the European Union, Germany, the United Kingdom and the United States, announced the Just Energy Transition Partnership to support decarbonisation efforts in South Africa.\textsuperscript{3290} The Partnership will mobilise USD8.5 billion to accelerate decarbonisation in South Africa’s economy, with particular attention to the electricity system, to help it achieve its national emissions reduction goals. This will help South Africa achieve their climate change targets.

In November 2021, End Child Prostitution in Asian Tourism France began a project to improve the protections for at-risk children victimised by sexual abuse seeking paths to safety.\(^{3291}\) The project places emphasis on increasing regional cooperation for assisting trafficked boys and girls, and a particular focus on strengthening respect for the rights of girls.

On 25 November 2021, as part of the Choiseul Africa Business Forum, Minister Delegate to the French Minister of Foreign Affairs Jean-Baptiste Lemoine, and his Gabonese counterpart Yolande Nyonda, officially launched a business forum for sustainable value chains in Africa.\(^{3292}\) “This forum aims to develop sustainable practices in agricultural and forestry industries in Africa.

On 7 December 2021, French Minister for Europe and Foreign Affairs Jean-Yves Le Drian partook in the Nutrition for Growth (N4G) Summit organized by Japan.\(^{3293}\) The minister outlined France’s commitments on nutrition for 2024. France committed to dedicating 25 per cent of the funds allocated by the French Muskoka Fund towards nutrition. The French Muskoka Fund currently works in “Benin, Burkina Faso, Chad, Côte d’Ivoire, Guinea, Mali, Niger, Senegal and Togo.” France also committed to allocating 15 per cent of French Development Agency (AFD) funding to agriculture, health and water, hygiene and sanitation for nutrition in eight “priority countries.” These countries include: Burkina Faso, Cameroon, Central African Republic, Chad, Laos, Madagascar, Mali and Niger.”

On 14 December 2021, AFD approved the allocation of funds for implementing 34 projects.\(^{3294}\) The projects in Africa include support for the guinea fowl industry, environmental management amongst women and young people in Togo, civil status registration of infants in the Democratic Republic of Congo and improving the employability of young people from marginalized urban areas through development, empowerment and social inclusion.

On 28 February 2022, during a meeting of the Intergovernmental Panel on Climate Change, the President of France pledged to increase French financial contribution to developing countries by EUR6 billion primarily to catalyze the development of the means and abilities to implement adaptation to climate change.\(^{3295}\)

On 24 March 2022, AFD approved the allocation of an additional EUR17.9 million in funding for implementing 18 projects in Africa.\(^{3296}\) The projects include support for the rural farmers and for the protection of vulnerable ecosystems against environmental damage in Tunisia, Morocco and Algeria; strengthening inclusivity and the integration of women into the realm of online business platforms in the Côte d’Ivoire; promoting the social and economic development of working-class neighbourhoods in the Côte d’Ivoire and Burkina Faso; combatting discrimination faced by young people in the judicial system in Senegal;

---

empowering youth through economic and social opportunities in Ethiopia and aiding in the prevention of mother to child HIV transmission in Togo.

On 20 April 2022, AFD launched two simultaneous appeals for manifestations of intention (AMI) directed towards civil society organisations (CSO) for the submission of project ideas under consideration for AFD financing in 2023.\textsuperscript{3297} The launching of two appeals consists of one directed towards French CSO’s and the other for projects proposed by CSO’s in the partner countries and will contribute towards meeting the objectives of the 2018-2023 Strategy for Partnerships with CSO’s. A particular area of interest for project proposals are those addressing the threat of instability in various regions throughout the African continent.

France has fully complied with its commitment to support sustainable growth in Africa. France has made contributions to the improvement of African agriculture and infrastructure, supporting gender equality and combating economic marginalization. These actions support the African Union Agenda 2063 in the areas of well-educated citizens and skills revolution underpinned by science, technology and innovation, modern agriculture for increased productivity and production, environmentally sustainable and climate resilient economies and communities, preservation of peace, security and stability, and full gender equality in all spheres of life.

Thus, France receives a score of +1.

\textit{Analyst: Daniel Yihan Mao}

**Germany: +1**

Germany has fully complied with its commitment to promoting sustainable growth within Africa.

On 14 June 2021, during a visit to West Africa, Minister of Development, Gerd Müller, signed an agreement with Togo’s Foreign Minister, Robert Dussey, over a reform partnership.\textsuperscript{3298} This laid the groundwork for a new training center in Togo to promote sustainability through education and encourage economic growth.

On 27 August 2021, Federal Chancellor, Angela Merkel, spoke at the G20 Investment Summit, announcing the beginning of 22 local business projects within Africa.\textsuperscript{3299} The projects will be conducted alongside AfricaConnect in support of economic growth.

On 8 September 2021, at the Tropical Forest Symposium, the Minister of Development, Gerd Müller, signed an agreement to increase protection in the Congo Basin.\textsuperscript{3300} It is predicted that the rainforest will be gone by 2100 unless strong measures are taken. Germany looks to protect this area and provide economic alternatives to the rainforest for locals.

On 11 September 2021, the Tunisian-German governmental negotiations resulted in Germany committing EUR175 million towards political stability and economic development including increasing employment opportunities.\textsuperscript{3301} The funding will promote sustainable development in Tunisia’s political and economic sectors.

On 30 September 2021, the Federal German government committed EUR100 million to the African Development Bank’s Sustainable Energy Fund for Africa.\textsuperscript{3302} The funding will go towards encouraging private sector investment in green projects, supporting assistance and investment in power generation and increasing the penetration of renewable power in African grids.

On 16 October 2021, the Ministry of Foreign Affairs declared that they would contribute EUR6.6 million from 2021-2023 to Veterinarians Without Borders as they work in Sudan, South Sudan, Ethiopia and Kenya to promote food security.\textsuperscript{3303} These projects will include teaching sustainable, environmentally conscious farming techniques, flood protection and renovating water points in support of sustainable agriculture.

On 2 November 2021, the Federal Ministry for Economic Cooperation and Development declared a new partnership with South Africa to support their energy transition from coal to renewable, environmentally conscious energy.\textsuperscript{3304} Through Climate Investment Funds, Germany looks to provide roughly EUR7.47 billion to the project over the next five years, as South Africa phases out coal for green hydrogen and electric vehicles. The new industries aim to promote both green energy and job growth.

On 8 November 2021, at the Climate Change Conference in Glasgow, the Federal Ministry for Economic Cooperation and Development committed EUR100 million to the Global Environment Facility Fund.\textsuperscript{3305} The Federal Environment Ministry contributed another EUR50 million to the Adaptation Fund. These projects will center around projects such as weather warning systems, efficient irrigation systems and water management among others. All projects are in support of Germany’s commitment to sustainable agriculture and climate in Africa.

On 1 December 2021, the Federal Ministry for Economic Affairs and Climate Action put into effect ‘Africa Advice Vouchers’ which allow small and medium-sized companies to enter African markets.\textsuperscript{3306} Funding covers 15 days and 75 per cent of the cost for consulting with the aim of increasing economic growth and stability within Africa.

On 17 January 2022, the Federal Ministry of Economic Cooperation and Development dedicated EUR12.5 million to South Africa towards the development of green hydrogen.3307 The project aims to provide sustainable energy, improve South Africa’s export economy and create ‘green’ jobs.

On 4 February 2022, the Federal Ministry of Economic Cooperation and Development promised EUR37 million towards fighting gender-based violence, EUR2.8 million towards civil organizations engaged in stopping female genital mutation, and EUR5.9 million for interventions on female genital mutilation in Somaliland, Sudan, and Ethiopia.3308 These investments are going towards the fight against gender-based violence within Africa.

On 17 February 2022, Federal Chancellor Olaf Scholz, along with the other individual member states of the European Union, committed to providing EUR20 billion a year towards the Global Gateway Investment Package. This investment will go toward promoting education, green initiatives and new technologies for sustainability around the world, including in African countries.3309

On 1 March 2022, the German and Rwandan governments signed a Climate and Development partnership.3310 The partnership will support the implementation of projects that are part of Rwanda’s Nationally Determined Contributions (NDCs), as laid out in the Paris Agreement, with Fonera, the Rwanda green fund and for sustainable urban development projects.

On 26 April 2022, the Minister of Development, Svenja Schulze, visited Ethiopia to meet with the African Union. In talks with commissioners, Minister Schulze highlighted that Germany will continue to support African countries in the areas of food security and Ethiopia as it faces the Tigray Crisis.3311 The German Ministry for Economic Cooperation and Development has adjusted funds to Ethiopia to focus on supporting food security and decent employment opportunities.

On 24 May 2022, the Federal Chancellor, Olaf Scholz, visited Senegal, Niger, and South Africa. He re-affirmed Germany’s commitment to further cooperation in the areas of climate change, energy, sustainable investment and trade in South Africa, improving the security situation and supporting democracy in Niger, as well as sustainable investment and energy, climate protection and the security situation in the Sahel in Senegal.3312

Germany has fully complied with its commitment to promote sustainable growth in Africa. Germany has taken action to support sustainable growth in Africa by financing initiatives which increase economic growth, education, new agriculture techniques and renewable energy. These actions support the African Union Agenda 2063 in the areas of environmentally sustainable and climate resilient economies and communities, modern agriculture for increased productivity and production and well-educated citizens and skills revolution underpinned by science, technology, and innovation.

Thus, Germany receives a score of +1.

Italy: +1

Italy has fully complied with its commitment to promote sustainable growth in Africa.

On 14 June 2021, G7 countries, along with multilateral partners, announced an USD80 billion commitment to invest in the private sector across Africa. These investments will collectively provide clean, reliable power to millions of people, give underserved markets better access to finance and help create jobs and reduce poverty. Italy, along with the other G7 countries, have supported this initiative.

On 24 September 2021, Prime Minister, Mario Draghi, allocated USD33 billion to help African countries overcome the effects of the pandemic. The funding facilitates comprehensive and sustainable debt restructuring for countries with an excessive level of debt.

On 5 October 2021, the closing workshop of the Pilot Initiative in Egypt took place. The opening session emphasized the continued support provided by the Italian Cooperation to Egypt towards building a more inclusive and gender-responsive society and promoting gender equality and women’s economic and social empowerment, a commitment it will strengthen in the coming years.

On 11 October 2021, The Embassy of Italy in Dakar announced the selection of young people from West Africa who will have the opportunity to continue their higher education in Italy in the 2021/2022 academic year. This is within the framework of the bilateral cultural and scientific cooperation initiative stemming from the commitment of the Italian diplomatic system to further relations with Senegal and Mali.

On 11 November 2021, The Italian Embassy in Kampala supported the “Start-up Africa Road Trip” training project, aimed at 20 local start-ups, mainly in Uganda, but also open to participants from other East African Countries. The undertakings presented aimed to tackle the most felt problems in the country, from alternative uses of urban waste to sustainable mobility and integration of the more vulnerable segments of the production fabric to extending access to basic medical care.

On 15 November 2021, The Minister of Foreign Affairs and International Cooperation, Luigi Di Maio, held telephone talks with the Deputy Prime Minister and Minister of Foreign Affairs of the Federal Democratic Republic of Ethiopia, Demeke Mekonnen. Italy reiterated its support for the mediation efforts of the African

---

Union’s High Representative for the Horn of Africa, the EU Special Representative and the US Special Envoy for an immediate cessation of hostilities and the opening of a political dialogue.\textsuperscript{3320}

On 19 November 2021, the Italian Federal Government ratified and executed an agreement between the government of the Italian Republic and the government of Tunisia to develop infrastructure for electricity transmission aimed at maximizing energy exchanges between Europe and North Africa.\textsuperscript{3321} The agreement was first put forward in Tunis on 30 April 2019.

On 30 November 2021, two events took place in Bamako, Mali with the goal of strengthening Italy-Mali relations.\textsuperscript{3322} Italian entrepreneurs inaugurated the headquarters of a new Italian-Malian Business Association. Later that evening, 50 Italian and Malian entrepreneurs got together to promote economic cooperation between the two countries. These events reiterated Italy’s commitment to developing multi-sectoral relations with Mali, in particular the development of bilateral trade and the special attention to supporting female entrepreneurs.

On 22 December 2021, Minister Di Maio held talks with the Somali Minister of Foreign Affairs and International Cooperation, Abdisaid Muse Ali. He confirmed Italy’s traditional commitment to security in Somalia and called for a peaceful continuation of the electoral process, highlighting Italian and European expectations for its conclusion. The Foreign Minister highlighted the numerous initiatives launched by Italy in Somalia, particularly in the fields of rural development, infrastructure and food security. Alongside this commitment, there is also the traditional support to the Somali National University, considering the importance Italy attaches to education.\textsuperscript{3323}

On 16 February 2022, Prime Minister Mario Draghi attended the Consultations and commitment prospects for the Sahel working dinner at the Élysée Palace in Paris.\textsuperscript{3324} During the dinner on the eve of the European Union – African Union Summit, Sahelian and neighboring countries as well as international partners, met to discuss the situation in the Sahel. They pledged to continue to help the people of Mali over the long term to face all challenges posed by the activity of armed terrorist groups in the Sahel.

On 9 March 2022, Deputy Minister of Foreign Affairs, Marina Sereni attended the third ministerial meeting of the International Coalition for the Sahel. The Sahel Coalition unites more than 60 Countries committed to the stabilization of the Sahel region which represents the southern border of the enlarged Mediterranean region. Sereni confirmed Italy’s commitment to foster the stability of the Sahel and to protect the civilian

populations, in coordination with the coalition partners, in combating terrorism, providing sustainable development aid and fighting the effects of climate change.3325

On 29 March 2022, a Strategic Dialogue between Italy and Algeria was held at the Ministry of Foreign Affairs. The delegations from diverse ministries and agencies in both countries met in working groups dedicated to re-affirming cooperation on politics and security, economic, global challenges and common goods in the Mediterranean.3326

On 20 April 2022, the Minister of Foreign Affairs and International Cooperation, Luigi Di Maio and the Minister for Ecological Transition, Roberto Cingolani signed a declaration of intent with the Republic of Angola to support the renewable energy transition and the implementation of joint decarbonization projects.3327

On 24 May 2022, Deputy Minister, Marina Sereni, attended “Africa Day” at Farnesina and voiced Italy’s support for transitioning countries in the African continent to renewable energy sources such as hydrogen, solar, and wind. She stated that “Italy can become an 'energy bridge' for a sustainable transition in Africa” and encouraged investment into sustainable energy sources.3328

Italy has fully complied with its commitment to promote sustainable growth in Africa. Italy has financed initiatives that aim to create educational opportunities, stimulate job growth, preserve peace, security and stability, support female entrepreneurship, and green energy projects in Africa. These actions support the African Union Agenda 2063 in the areas of environmentally sustainable and climate resilient economies and communities, well-educated citizens and skills revolution and full gender equality in all spheres of life.

Thus, Italy receives a score of +1.

Japan: +1

Japan has fully complied with its commitment to promoting sustainable growth within Africa.

From 29 June to 8 July 2021, the Asia External Representation Office of the African Development Bank hosted the third Japan-Africa Business Forum, in coordination with the African Diplomatic Corps in Tokyo, the Japan External Trade Organization, the Japan International Cooperation Agency, the United Nations Development Programme and United Nations Industrial Development Organization.3329 The conference featured topics on how to support Africa through business and yielded 59 follow up business to business meetings. The goal was to increase investment and trade, promoting economic growth within Africa.

3328 Transition; Sereni, Italy can be an 'energy bridge' to Africa, Ministry of Foreign Affairs and International Cooperation (Rome) 24 May 2022. Translation provided by Google Translate. Access Date: 30 May 2022. https://www.esteri.it/it/sala_stampa/archivionotizie/comunicati/2022/05/trasizione-sereni-litalia-puo-essere-un-ponte-energetico-verso-lafrica/
On 30 June 2021, the Government of Japan and the UNDP launched two cooperation projects with the Cairo International Center For Conflict, Resolution, Peacekeeping and Peacebuilding. Build on “Enhancing Peace, Security and Stability in Africa,” Japan contributed approximately USD1.15 million towards Africa’s resilience and stability.

In August 2021, the Ministry of Foreign Affairs of Japan reached an agreement with Djibouti to provide grant aid toward education with a maximum of JPN2.1 billion. This contribution strives to increase access to basic education and improve the school environment which will contribute to the country’s future development.

On 3 August 2021, the Government of Japan contributed over USD4 million to the United Nations Voluntary Trust Fund for Assistance in Mine Action, with the aim to reduce explosive hazard management in Somalia. The financial contribution aims to reinforce their goal of peace building and stability within Somalia.

On 18 October 2021, Tsutomu Himeno, Ambassador of Japan to the Republic of Liberia, and Mariatou Njie, FAO Representative in Liberia, signed a letter for aid of JPN395 million entitled, "Capacity Enhancement Plan in Fisheries and Rice Cultivation for Food Security and Nutrition Improvement (FAO Collaboration)." This aid will go towards food security and the development of fishermen and rice farmers.

On 21 October 2021, the Government of Japan, allied with the World Food Programme (WFP), provided USD4.5 million to Ghana health service in order to increase education on nutrition specifically to women and girls. This funding supports Japan’s initiatives of stability through health, education and equality.

On 25 October 2021, Mr. Masaki Amadera of the Embassy of Japan to Libya committed USD1.8 million to the UNDP’s ‘Promoting Elections for the People of Libya’ project. ‘This action will support technical assistance, planning, fairness and transparency. This contribution serves Japan’s commitment to increase transparency and anti-corruption within African countries.

On 30 November 2021, the Japan International Cooperation Agency signed a Record of Discussions with the Government of the Republic of South Sudan in Juba which was for the Juba City Clean Water Supply Project. The project will support the South Sudan Urban Water Company which will promote water access and quality within the region.

---

On 14 December 2021, Umio Otsuka, the Ambassador of Japan to the Republic of Djibouti, confirmed that Japan would provide JPN3 billion toward marine security in Djibouti. Japan aims to build Djibouti’s security in order to maintain peace and stability on their waters.\textsuperscript{3337}

On 26 January 2022, the Food and Agriculture Organization of the United Nations, Subregional Office for Eastern Africa and the Japanese Government Mission to the African Union launched a subregional project which works to increase women and youth involvement in the agricultural sector.\textsuperscript{3338} The project will increase both gender equality and agricultural sustainability.

On 8 February 2022, the Ministry of Foreign Affairs Japan posted an official announcement for the Tokyo International Conference on African Development conference at which Japan and Africa will work together to promote development in economic, health, agricultural, and other sectors.\textsuperscript{3339} The policies agreed upon at this conference will go towards sustainable growth across Africa.

On 18 March 2022, the Japan International Cooperation Agency announced that they would begin a six-month management programme to support African entrepreneurs. The programme will work to increase sustainability in the private business sector of Africa.\textsuperscript{3340}

On 13 April 2022, the Japan International Cooperation Agency signed a Record of Discussions with the Government of South Africa for a technical cooperation project, Quality and Productivity Improvement Project (KAIZEN).\textsuperscript{3341} The project aims to support the dissemination of quality and productivity improvement training in more than three provinces, across several sectors, to enhance sustainable human resources training with the goal of improving the efficiency and competitiveness of mid-sized enterprises.

Japan has fully complied with its commitment to promote sustainable growth in Africa. Japan has taken action to support sustainable growth in Africa by financing initiatives which increase economic growth, education, gender equality and election transparency. These actions support the African Union Agenda 2063 in the areas of environmentally sustainable and climate resilient economies, well educated citizens and skills revolution underpinned by science, technology and innovation, and communities, modern agriculture for increased productivity and production and the preservation of peace, security and stability.

Thus, Japan receives a score of +1.

\textbf{United Kingdom: +1}

The United Kingdom has fully complied with its commitment to support sustainable growth in Africa.

On 12 October 2021, CDC Group plc, the United Kingdom’s development finance institution and impact investor, and DP World entered a long-term partnership that aims to accelerate Africa’s trade and economic

The partnership’s initial focus is the expansion and modernization of three ports in Sokhna (Egypt), Dakar (Senegal) and Berbera (Somaliland). With the United Kingdom’s investment of £1.7 billion, the Minister for Africa, Vicky Ford, notes that the three ports will “create 5 million new jobs and increase trade for 35 million people.”

On 1 November 2021, CDC Group committed to investing over £3 billion over the next five years to aid emerging African and Asian economies to combat the climate emergency. The commitment, made at the United Nations Climate Change Conference in Glasgow, follows Prime Minister Boris Johnson’s announcement of the new “Clean Green Initiative” which helps developing countries procure green technology and sustainable economic growth.

On 2 November 2021, the government of the United Kingdom, alongside the governments of France, Germany, the European Union and the United States, announced the Just Energy Transition Partnership to support decarbonisation efforts in South Africa. The Partnership will mobilise US$8.5 billion to accelerate decarbonisation in South Africa’s economy, with particular attention to the electricity system, to help it achieve its national emissions reduction goals.

On 3 November 2021, the United Kingdom government announced a £200 million “Climate Innovation Facility.” The facility will pioneer modern, sustainable innovations, such as the untested “pay-at-harvest” system created by Kenyan agritech business Pula, which aims to boost agriculture in multiple African nations.

On 4 November 2021, the United Kingdom government called for an immediate de-escalation of the civil war in Ethiopia after Ethiopian Prime Minister Abiy Ahmed declared a state of emergency in Tigray.

On 10 November, the UK’s Foreign Secretary, Dominic Raab, spoke with Prime Minister Abiy on a phone call to address the need for access to humanitarian aid and increased civilian security in Ethiopia.

On 6 December 2021, the United Kingdom’s Ambassador to the United Nations, James Roscoe, attended the United Nations Security Council briefing on the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO) and stated the United Kingdom’s support for a “gradual, sustainable withdrawal” of MONUSCO. He emphasized that the United Kingdom will fully support

---

3344 CDC Group to invest over £3 billion over the next five years to combat the climate emergency, CDC Group Plc (London) 1 November 2021. Access Date: 13 December 2021. https://www.ccdgroup.com/en/news-insight/news/cdc-group-to-invest-over-3-billion-over-the-next-five-years-to-combat-the-climate-emergency/

MONUSCO in collaboration with the Democratic Republic of Congo (DRC) in achieving the withdrawal as well as ensuring a more stable, peaceful and prosperous DRC.

On 14 December 2021, the United Kingdom’s Minister for Africa, Vicky Ford, gave a speech regarding the United Kingdom’s priorities as she takes on her new role. She emphasized that the United Kingdom needed to invest to building long-term partnerships in Africa and listed five main priorities for 2022: 1) strengthen freedom and democracy for more peaceful nations; 2) Strengthening economic partnerships to stimulate job growth; 3) Encourage clean, green and sustainable growth; 4) Help African countries become safer and 5) Empowering women and girls.

On 15 December 2021, the United Kingdom’s Ambassador to the United Nations, James Roscoe, stated that the United Kingdom remained concerned regarding the human rights violations in the North-West and South-West regions of Cameroon and condemns the terrorist attacks that have occurred. He stated that the United Kingdom government will continue to support the regional stabilisation facility. In addition, it was highlighted that the United Kingdom remains concerned with the violence in the Central African Republic and commended President Touadera for his call for a ceasefire, stating the importance of an “inclusive peace-building process.”

On 3 March 2022, the United Kingdom’s CDC Group announced that it is joining forces with the Norwegian investment fund Norfund to invest in renewable energy development in South Africa. As a part of their joint commitment to invest a total of ZAR600 million in South-African Black-owned renewables company H1 Capital, the CDC Group committed to investing ZAR240 million.

On 7 March 2022, the United Kingdom’s Global Ambassador for Human Rights, Rita French, reiterated this stance in a speech to the UN Human Rights Council and urged “all Sudanese parties to engage fully with the UN-facilitated talks to reach a solution that leads to the restoration of a civilian-led government.”

On 7 March 2022, United Kingdom Ambassador James Kariuki made a statement at the UN Security Council briefing on South Sudan calling upon South Sudan’s Government to “fulfill their responsibilities, with respect to their people,” reduce their interference in humanitarian activities and remove all “bureaucratic impediments to humanitarian delivery.”

---

On 16 March 2022, Ambassador James Kariuki made a statement at the UN Security Council briefing on the situation in Libya by calling upon all internal and external actors to facilitate de-escalation by refraining from “any moves that could undermine stability or deepen divisions in Libya” and actions that could “unravel the hard-won ceasefire” achieved over the past two years.3356

On 29 March 2022, International Trade Secretary Anne-Marie Trevelyan announced the United Kingdom’s support of the African Continental Free Trade Area (AfCFTA), the world’s largest free trade area.3357 The Foreign Commonwealth and Development Office committed to providing up to GBP35 million to offer trade facilitation and policy support to AfCFTA, which can boost Africa’s industrialisation, job creation and economic prosperity.

On 30 March 2022, the United Kingdom delivered a statement condemning the violence against civilians and abuses and violations of human rights in the Central African Republic.3358 The United Kingdom stated its commitments to “continue to work with international partners to urge the Government of CAR to make progress implementing the peace agreement and initiate dialogue between all political actors in CAR, in order to end violence, build stability and protect human rights.”

On 26 April 2022, the United Kingdom’s Minister for Africa, Vicky Ford, announced a 25GBP million aid package for Somalia in light of the widespread famine.3359 The package will provide vital services to people across the country, including food, clean water, sanitation and hygiene support. This additional support increases the United Kingdom’s total financial support for Somalia to 40GBP million in the calendar year of 2022.

On 27 April 2022, the United Kingdom’s Minister for Africa, Vicky Ford, gave a speech at Lancaster House announcing a 74GBP million loan to First Bank, through British International Investment.3360 This loan will support female entrepreneurs and small businesses in Nigeria.

On 25 and 26 May 2022, Minister Ford visited Sierra Leone to demonstrate how the United Kingdom and Sierra Leone are working together to empower women and girls, promote human rights and democracy, and accelerate sustainable economic development. During her visit, Minister Ford stated that “The UK stands ready to support in these vital endeavors.” Beyond verbal commitment, Minister Ford met with school children in Songo to learn how the United Kingdom’s GBP58.7 million education program is working to ensure all children receive quality education in Sierra Leone.3361

The United Kingdom has fully complied with its commitment to support sustainable growth in Africa. The United Kingdom has taken full action to support sustainable growth by assisting in initiatives that bolster African nations’ economic potential, environmental sustainability and resilience, modernization of agriculture

---

G7 Research Group, 23 June 2022
and promotion of civil peace. These actions support the African Union Agenda 2063 in the areas of environmentally sustainable and climate resilient economies and communities, modern agriculture for increased productivity and production and preservation of peace, security, and stability.

Thus, the United Kingdom receives a score of +1.

**United States: +1**

The United States has fully complied with its commitment to support sustainable growth in Africa.

On 17 June 2021, the United States Agency for International Development (USAID) announced over USD91 million in funding for addressing humanitarian concerns resulting from the COVID-19 pandemic in over a dozen African countries. Responding to gender-related violence is a stated goal for the funding directed towards countries including but not limited to Burkina Faso, Somalia and Sudan.

On 19 October 2021, at the Financial Times Africa Summit, USAID confirmed that it would provide technical assistance and that the United States International Development Finance Corporation (DFC) will provide a credit guarantee to the Caisse Régionale de Refinancement Hypothécaire (CRRH) in support of an effort to raise over USD200 million in private capital from the United States to increase access to affordable housing in West Africa.

On 21 October 2021, at the African Growth and Opportunity Act Ministerial, USAID announced the launch of the Africa Trade and Investment programme. Objectives of the initiative include 1) Encourage investment in shared value-chains, increase sourcing and grow exports 2) “Support African exports under the African Growth and Opportunity Act (AGOA) and help African firms in eligible countries export to the United States tariff free” 3) “Support implementation of the African Continental Free Trade Area to increase intra-regional trade in Africa and attract increased U.S. business interest” 4) “Provide direct technical and legal assistance, in collaboration with the U.S. government, to help firms, government, and industries propose and implement regulatory reforms that will remove restrictions, advance specific deals, and open sectors for more investment.”

On 2 November 2021, at the United Nations Climate Change Conference, the President of the United States, Joe Biden, recognized USAID’s commitment to the Agriculture Innovation Mission for Climate (AIM for Climate) and pledged to mobilize USD1 billion over five years. AIM for Climate includes the commitment to raise agricultural productivity in South Asia and Sub-Saharan Africa by 25 per cent.

On 2 November 2021, the United States government, alongside the governments of France, Germany, the United Kingdom and the European Union, announced the Just Energy Transition Partnership to support

---

decarbonisation efforts in South Africa.\textsuperscript{3367} The Partnership will mobilise USD8.5 billion to accelerate decarbonisation in South Africa’s economy, with particular attention to the electricity system, to help it achieve its national emissions reduction goals.

On 11 November 2021, the United States African Development Foundation (USADF) announced the first 25 enterprises to receive technological assistance and financial grants under the African Resilience Initiative for Entrepreneurs.\textsuperscript{3368} This grant will contribute to the development of African economies by assisting in the growth of small and medium sized enterprises.

On 25 October 2021, the US decided to withhold the delivery of USD700 million in Economic Support Funds to Sudan, which was originally intended to aid in Sudan’s democratic transition, so as to avoid the misappropriation of these funds due to a military takeover in the country.\textsuperscript{3369} However, on 2 February 2022, the USAID announced that they will continue providing some of the USD700 million by bypassing the military, such as by allocating USD108 million to support “the growth of civil society organizations in the country” and providing education to help citizens prepare for an eventual democratic transition.\textsuperscript{3370}

On 14 February 2022, USAID announced its decision to provide an additional USD39 million to Ethiopia in response to the ongoing drought in the Horn of Africa.\textsuperscript{3371} This measure will assist the region in maintaining stability whilst it develops the means to alleviate the impact of such challenges.

On 22 February 2022, USADF and the Nigerian investment group All On launched the 2022 Nigeria Off-Grid Energy Challenge, which will provide up to USD100,000 in funding to successful applicants to implement strategies for providing power and electricity to rural communities.\textsuperscript{3372} The development of energy infrastructure can contribute to the long-term growth of developing regions of the country.

On 4 March 2022, US International Development Finance Corporation and USADF jointly announced the launch of the African Small Business Catalyst.\textsuperscript{3373} ASBC will provide grants of USD100,000 to USD1 million to smaller enterprises with emphasis relating to and addressing agriculture and food stability, climate change and gender equality.

On 27 April 2022, the US announced that it would provide 200USD million to the Horn of Africa for its ongoing drought and related concerns.\textsuperscript{3374} This assistance will respond to needs arising from the drought and the needs of refugees, internally displaced persons, and people affected by regional conflict. Furthermore, it will provide food and nutrition assistance, health services, access to safe water, and sanitation and hygiene.

On 18 May 2022, Secretary of State Antony J. Blinken hosted a conversation with African leaders concerning a wide range of issues of mutual concern, including the pressing challenge of food security. Secretary Blinken emphasized that the United States is focused on addressing food insecurity and is looking for ways it can collaborate to solve domestic food supply concerns.3375

The United States has fully complied with its commitment to sustainable growth in Africa. It has contributed to the development of more productive agriculture, environmentally sustainable economies, supported the growth of sustainable infrastructure, advanced stability and security and fostered gender equality. These actions support the African Union Agenda 2063 in the areas of well-educated citizens and skills revolution underpinned by science, technology and innovation, modern agriculture for increased productivity and production, environmentally sustainable and climate resilient economies and communities, preservation of peace, security and stability and full gender equality in all spheres of life.

Thus, the United States receives a score of +1.

Analyst: Daniel Yihan Mao

European Union: +1

The European Union has fully complied with its commitment to support sustainable growth in Africa.

On 16 June 2021, the European Commission announced the provision of an additional EUR20 million to finance a new power plant in Rwaguba, Democratic Republic of Congo to support electricity loss due to a recent volcanic eruption.3376 The power plant will be hydroelectric and aims to provide more households and schools with electricity while promoting opportunities for sustainable growth.

On 16 August 2021, the European Union provided EUR700 thousand from its Epidemic Tool to help Tunisia respond to the COVID-19 pandemic. The funding will help address the country’s immediate needs related to COVID-19 cases and management. Similarly, the European Union anticipates its usage in coordinating and supporting Tunisia’s vaccination campaign, which will aid the country in recovering from the long-term societal impact of COVID-19.

---

On 22 September 2021, the European Commission announced the provision of an additional EUR119 million in humanitarian and development aid to Yemen. The funds will go towards helping local authorities deliver and sustain basic services such as, education, health, water and energy supply from sustainable sources. The funding also aims to generate income for vulnerable households through the provision of livelihood opportunities in cultural heritage preservation and entrepreneurship, focusing on the Yemeni women and youth as the target population in this approach.

On 2 November 2021, the European Union government, alongside the governments of France, Germany, the United Kingdom and the United States, announced the Just Energy Transition Partnership to support decarbonisation efforts in South Africa. The Partnership will mobilise USD8.5 billion to accelerate decarbonisation in South Africa’s economy, with particular attention to the electricity system, to help it achieve its national emissions reduction goals.

On 3 November 2021, the European Commission allocated EUR2 million for those affected by recent floods in South Sudan. The funding will be channeled through the International Organization for Migration and will provide life-saving water and sanitation, shelter and other essential non-food items to vulnerable populations in the region.

On 13 December 2021, The European Union and the Italian Agency for Development Cooperation in Dakar reported that they signed 1400 internship contracts in 2021 to promote job creation and stable employment. The project aims to support the private sector and job creation in Senegal in the regions of Dakar, Diourbel, Thiès, Kaolack, Louga and Saint-Louis.

On 17 December 2021, the European Commission allocated EUR21.5 million of additional humanitarian funding to the Horn of Africa. The funding will support life-saving operations that address the urgent needs of vulnerable populations in the affected areas of Somalia and Kenya. The European Commission will allocate EUR18.5 million to Somalia, offering access to emergency cash and food assistance, basic health and nutrition services, clear water, protection, shelter and education. In addition, it will allocate EUR3 million to Kenya with the aim of ensuring food assistance and access to healthcare, undernutrition treatment and education.

On 22 December 2021, the European Union allocated EUR15 million of additional monetary assistance to the Sahel region. This policy will top the EUR54 million in food and nutrition that had been given to four Sahel countries (Burkina Faso, Mali, Mauritania and Niger), which aims to assist vulnerable groups that have been affected by conflict, insecurity and forced displacement. The European Unions expects that this funding will further address the most intense needs in food and nutrition while reducing the impacts of a humanitarian crisis in 2022.

On 27 January 2022, the EU established a EUR175 million budget in 2022 to reaffirm its solidarity with vulnerable countries in West and Central Africa. Burkina Faso (EUR23.5 million), Cameroon (EUR16

---

million), the Central African Republic (EUR17 million), Chad (EUR26.5 million), Mali (EUR25 million as a complement to the European Union’s sanctions against individuals who obstruct the political transition), Mauritania (EUR8.5 million), Niger (EUR24 million) and Nigeria (EUR34 million) all will receive economic assistance.\textsuperscript{3386} As a result, this policy, bearing in mind those affected by conflict, aims to provide protection and respect of the International Humanitarian Law while addressing severe malnutrition among children and enhancing the communities’ preparedness for crises.

On 15 February 2022, the EU announced that its humanitarian funding for North Africa will amount to EUR18 million. This monetary support will aid the most vulnerable communities in Egypt, Libya and Algeria, meeting their increasingly growing needs due to the COVID-19 pandemic.\textsuperscript{3387} Accordingly, the EU will allocate EUR9 million to Algeria as a strategy to meet the most pressing issues of Sahrawi refugees; EUR5 million to Egypt in order to help vulnerable asylum seekers in urban areas and EUR4 million to Libya, addressing protection, health and educational needs.

On 17 February 2022, the EU announced its commitment to direct EUR294.2 million in funding to vulnerable populations in East and Southern Africa in 2022. Highlighting the importance of EU-African cooperation, the EU’s policy aims to strengthen development in Djibouti (EUR500,000), the Democratic Republic of the Congo (DRC) and the Great Lakes region (EUR44 million), Ethiopia (EUR48 million), Kenya (EUR13 million), Somalia (EUR41 million), Southern Africa and the Indian Ocean region (EUR27 million), South Sudan (EUR41.7 million), Sudan (EUR40 million), and Uganda (EUR30 million). An additional EUR9 million will address the refugee situation in the DRC, Rwanda and Tanzania, and promises to supplement the EUR21.5 million allocated to the Horn of Africa in December.\textsuperscript{3388}

On 23 February 2022, the EU announced the allocation of EUR43 million in aid to Niger in 202 Hoping to address the unprecedented food and nutrition crisis in the country.\textsuperscript{3389} This aid will go towards regions affected by conflict, epidemics, food shortages and high rates of child malnourishment. Given that 3.7 million people need humanitarian assistance in Niger, the primary focus will be on facilitating access to safe water, children’s education and shelter.

On 24 March 2022, the EU allocated EUR24.5 million in assistance to the African Union by cooperating with the World Health Organization.\textsuperscript{3390} This aid will facilitate the manufacturing of quality-assured vaccines, medicines and health technologies in Sub-Saharan Africa, strengthening the region’s regulatory frameworks and functions in a plan that seeks to create vaccines for Africa and by Africa. Thus, the EU supports the distribution of funds in three different categories: regulatory strengthening (EUR11.5 million), technology transfer (EUR12 million) and demand consolidation and strategic purchasing (EUR1 million).

On 31 March 2022, the European Commission strengthened its partnership with Niger, Ivory Coast and Ghana by allocating EUR300 million, EUR58 million and EUR44.7 million, respectively, to enhance

sustainable investments in the region. Hence, the Commission seeks to support stability and security in the Nigerian territory, developing human capital and sustainable growth while launching cocoa production plans in Ivory Coast and improving vaccine production in Ghana. Simultaneously, the EU aims to aid these key regional partners to construct projects that improve agricultural water management, governance, vocational training, and education.

On 6 April 2022, the EU targeted a total of EUR554 million in 2022 to increase food security in the Sahel and Chad. Co-organized by the Sahel and West Africa Club, the Global Network against food crises, and the European Union, this assistance includes a humanitarian and support component that seeks to improve the root causes of food insecurity in Burkina Faso, Cameroon, Chad, Mali, Mauritania, Niger and Nigeria. As a result, the EU announced the allocation of EUR67 million to the Sahel and Chad regions to enhance the sustainability of food systems through a Humanitarian-Development-Peace approach, while setting aside EUR654 million for the 2021-2024 period in these seven countries. This final contribution will ensure that the existing mechanisms are adapted to tackle insecurity and structural vulnerabilities in the socio-political, economic and environmental spheres.

On 21 April 2022, the European Council decided to issue EUR600 million in assistance to the African Union under the European Peace Facility (EPF). This new support measure is in line with the European Union’s commitment to strengthen peace and security on the African continent, allowing the African Union to request support for individual Peace Support Operations as the need arises. Additionally, this project aims to create a quick response to relevant security developments on the African continent, adding an extra EUR10 million to cover the personnel and operational costs of the Multinational Joint Task Force against Boko Haram (MNJTF), which includes air transportation, communication equipment and medical services.

On 26 April 2022, the European Commission announced funding of EUR348 million in 2022 to support food security in the Horn of Africa. The funding will go towards humanitarian assistance and long-term support to address the causes of food insecurity, such as the impact of climate change and mitigation approaches.

On 27 May 2022, President von der Leyen offered a speech at the African Union Extraordinary Humanitarian Summit and Pledging Conference and reaffirmed the EU’s financial commitment towards supporting African nations in addressing food security. While no monetary commitments were made, President von der Leyen noted an immediate focus on addressing food security and a long-term focus on the root causes of insecurity, as both “Africa and Europe have a shared hope and mission for sustainable development and peace.”

The European Union has fully complied with its commitment to support sustainable growth in Africa. The European Union has provided financial assistance to African nations that support education and employment opportunities, women’s empowerment, climate preparedness and also aims to respond to political crises. These actions support the African Union Agenda 2063 in the areas of well-educated citizens and skills revolution underpinned by science, technology and innovation, environmentally sustainable and climate

---

resilient economies and communities, preservation of peace, security and stability and full gender equality in all spheres of life.

Thus, the European Union receives a score of +1.
